Appeals and Complaints

Appealing Against Assessment Results

Any student who believes that the mark awarded for an assessment or subject does not fairly reflect their achievement has the right to an appeal.

Appeals

In the first instance, students are encouraged to discuss assessment outcomes and processes with their Trainer. (Concerns regarding assessment results must be discussed with the trainer no more than 10 working days from the date of issue).

If the outcome of the discussion is deemed to be not satisfactory, and the student does not agree with the result, the student should complete a reassessment application form which can be handed to the administration staff or CEO.

The student assessment will be reviewed by another trainer and the results will be detailed on the reassessment application form.

If the student does not agree with the outcome of this process, the assessment item will be reviewed by the CEO and where necessary a panel will be formed of no less than three qualified staff to review the appeal and assessment. The student will be notified of the panel outcome in writing.

In cases where the student is not satisfied with the outcome, they should be advised of their right to contact ASQA and lodge a complaint direct.

Complaints

In the event of a complaint, the student must initially try to resolve the problem with the person concerned. Should the problem remain unresolved, you are required to:

Complete a Complaint form available from the RTO Manager.

Complaints will be registered with the RTO and resolution will be forwarded to the student in writing within 14 working days.

If the complaint remains unresolved, the student may seek independent advice or lodge a complaint with the Australian Skills Quality Authority (ASQA).
