

COURSE INFORMATION

SHB50321 DIPLOMA OF COSMETIC TATTOOING

NATIONALLY RECOGNISED CODE & TITLE

SHB50321 Diploma of Cosmetic Tattooing

COURSE SUMMARY

This qualification reflects the role of individuals who work as cosmetic tattooists who design and provide cosmetic tattooing services.

These individuals work autonomously and are accountable for personal outputs. Their work involves the self-directed application of specialised knowledge and experience to consult, design and manage sequential treatment programs. They possess highly developed communication and technical skills. Practitioners operate within a defined scope of practice and use initiative and judgement to refuse or refer treatments as required.

Work is typically conducted in beauty salons and skin clinics.

The skills in this qualification must be applied in accordance with Commonwealth and State or Territory legislation, Australian standards and industry codes of practice.

No occupational licensing, certification or specific legislative requirements apply to this qualification at the time of publication.

Cosmetic Tattooing is subject to Skin Penetration regulation in some states and territories. The supply of topical anaesthetics is restricted in some states and territories.

CAREER PATHWAY

Learners who successfully complete this qualification are able to seek employment as a cosmetic tattooist.

DIPLOMA REQUIREMENTS

To receive your Diploma in Cosmetic Tattooing you will need to complete 4 core units and 5 electives (including at least one infection control unit).

COURSE FEE

Course cost structure varies depending on the number of specialisations within the Diploma a student is wishing to pursue.

The cost of the Diploma of Cosmetic Tattooing ranges from \$8,069 to \$14,700, depending on your chosen number of treatment specialisations. Refer to our Fee Schedule for cost breakdown.

Please email info@elevaretraining.com.au to get a customised quote for the electives you wish to undertake.

Consultation material

COURSE PRE-REQUISITES

Nil

STUDENT REQUIREMENTS

- Basic Language, Literacy and Numeracy skills in English (LLN)
- Unique Student Identifier (USI)

A USI is a unique educational reference number issued by the Australian Government to all higher education students for the purpose of creating a secure online record of nationally recognised training that an individual can access anytime and anywhere. To receive a Statement of Attainment on completion of your course, you will need to provide your USI

number. Creating a USI is free and you can visit www.usi.gov.au if you don't already have one or have forgotten your USI number.

- Access to a functional laptop or PC with internet access and a Google Chrome internet browser.
- Models for cosmetic tattooing practice
- Smartphone or camera to take photos
- Printer
- Drawing implements for sketching

STUDENT SUPPORT

Our support staff and admin team are available to students and potential students who require support during office hours of 8:30am – 4:30pm (QLD).

TOPICS INCLUDE

This course covers the theory and practice associated with:

- Establish client requirements
- Design and recommend cosmetic tattooing
- Perform patch test
- Provide cosmetic tattooing
- Review treatment and provide post treatment advice
- Clean treatment area

COURSE STRUCTURE

The Diploma of Cosmetic Tattooing requires students to complete 9 units of competency. This is to include the 4 Core Units, an Infection Control Unit, and up to 3 Cosmetic Tattoo Treatment Electives. The remaining units (1-3) are to be made up of Business Electives.

While you have a variety of choice between the elective units, the core units are required for all students wishing to complete the Diploma of Cosmetic Tattooing or gain an accredited treatment elective certificate.

The core units cover foundational cosmetic tattoo topics to ensure that technicians have an understanding of the skin, hair, pigments, design and consultation techniques.

Core Units (required)

- SHBBCOS001 Provide cosmetic tattooing consultations
- SHBBCOS002 Apply knowledge of colour theory and pigmentology to cosmetic tattooing
- SHBBCOS003 Incorporate elements and principles of design to cosmetic tattooing
- SHBBSSC004 Identify the function and structure of skin and hair for cosmetic tattooing

Infection Control Units (pick one)

- SHBBINF002 Maintain infection control standards, *or*
- HLTINF005 Maintain infection prevention for skin penetration treatments

Elective Cosmetic Tattoo Units (pick at least one and up to three)

- SHBBCOS004 Provide cosmetic tattoo for eyebrows
- SHBBCOS005 Provide cosmetic tattoo for lips
- SHBBCOS006 Provide cosmetic tattoo for eyes

Elective Business Units (pick at least one and up to three)

- BSBESB401 Research and develop business plans
- BSBESB404 Market new business ventures
- BSBESB406 Establish operational strategies and procedures for new business ventures

ASSESSMENT TASKS

1. Research, multiple choice and short answer assessment questions for online theory component.
2. Practical demonstration of skills and knowledge face-to-face with trainer.

Typical assessments might include:

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the job role, and:

- communicate, follow and modify treatment plans, to provide patch tests and three cosmetic tattooing treatments for clients on three different tattooing sites from the following list:
 - Eyelids
 - Eyebrow
 - Lips
- design appropriate tattoos for each client.
- select and mix pigments according to tattoo design.
- provide patch tests for each client that replicate the treatment plan:
 - Equipment
 - Procedure
 - Treatment
- develop, record and maintain treatment plans and records for each client specifying details of:
 - adverse reactions
 - aftercare recommendations and advice

- anaesthetic used and method of application
 - changes in client skin condition
 - contraindications
 - outcomes of patch test and treatments
 - needle size and type
 - pigments and products used
 - relevant medical history and medications
 - skin analysis
 - tattoo design
 - treatment procedure
 - photograph treatment site before and after treatments ensuring clarity and comparability of an image
- provide safe treatments demonstrating the application of health and hygiene regulations and skin penetration guidelines with a focus on:
 - disinfection of treatment area
 - disposal of infectious and non-infectious waste
 - disposal of needles
 - equipment sterilisation and disinfection
 - hand washing
 - prevention of blood to blood contact
 - use of equipment:
 - disposable
 - personal protection equipment
 - single-use, sterile, disposable needles
- treat client demonstrating appropriate selection and use of
 - pigment needles:
 - angle
 - depth
 - electric current levels
- recognise and manage contraindications to tattoo services
 - interact with and reassure the client throughout the treatment
 - treat clients causing a minimal skin reaction
 - present self according to organisation policy
 - comply with health, hygiene and skin penetration regulations and requirements

ENROLMENT

Students can enrol by visiting our website <https://elevaretraining.com.au/>.

Our enrolment team will then be in touch to confirm your personal course options and complete a pre-enrolment assessment.

Once an enrolment form and payment are received by Elevare Training Group, the student will be granted access to our online training portal (within business trading hours) to enable them to commence the course. Please be aware that enrolments can only be processed during trading hours of 8:30am-4:30pm Monday to Friday (QLD).

STUDENT SUPPORT & MORE INFORMATION

Please view our student handbook prior to enrolment for further information regarding extension, withdrawal and refund policies as well as student and Elevare Training Group's rights and responsibilities.
